

editLogic

Dassault Systèmes ENOVIA MatrixOne Developer's Editor

KEY FEATURES

- Enables rapid development by eliminating the need to switch between code editors, MQL, Business Admin and Matrix
- Complete developer's editor – including syntax highlighting for Java/JavaScript, TCL/MQL, HTML, XML, and more
- Provides more efficient interfaces for common Matrix tasks
- Automatic or manual program Versioning using your Matrix database
- Password and Matrix privilege security
- Compatible with all Matrix versions
- Small footprint

```

editLogic main window

editLogic

Feature Comparison	editLogic	UltraEdit	Matrix	Business	MQL
Matrix Functions					
Integrates directly with your Matrix database	✓		✓	✓	✓
Create eService Trigger Objects	✓		✓		✓
Clone/Modify/Delete Trigger Objects	✓		✓		✓
Cross-reference Trigger Objects/Programs	✓				
Print Trigger Object Lists (formatted)	✓				
Create/Modify AEF Registration	✓		✓		✓
View AEF Registration	✓		✓		✓
Print AEF Registration (formatted)	✓				
Direct MQL Command Window	✓				✓
MQL Command window – unlimited buffer	✓				
MQL Command window – color coded	✓				
Clone/Create/Modify Programs	✓			✓	✓
Direct Edit and Save of Program code	✓			✓	
Clone/Create/Modify JPOs	✓			✓	✓
Direct Edit and Save of JPO code	✓			✓	
Compile JPOs	✓				✓
Versioning of program code – automatic or manual	✓				
more...	✓				
Programming/Editing Functions					
Record and save keystroke macros	✓	✓			
Built-in Tcl/MQL syntax support	✓				
ASCII character chart	✓	✓			
Automatic syntax language detection	✓	✓			
One button indent/outdent	✓				
Color picker w/RGB/HSV/HTML/HEX output	✓				
Simple button style interface	✓				
Simultaneous syntax highlighting for multiple programming languages	✓	✓			
Favorite Folder shortcuts	✓	✓			
Favorite Documents shortcuts	✓				
Search and replace in disk files	✓	✓			
Configurable time/date stamp	✓				
Open files from windows shortcuts	✓				
Bookmarks	✓	✓			
File Comparison Feature	✓	✓
